

AMENDMENTS TO CLAIMS

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

1. (Currently Amended) A method for ~~selecting to activate~~ selectively activating a personal digital assistant (PDA) or mobile phone in an electronic device comprising a menu containing a PDA option and a mobile phone option such that when said device is enabled, said PDA or said mobile phone option is selectable for generating a signal indicating said selection, and a central processing unit (CPU) for showing a prompt of said selected PDA option or said mobile phone option for use after receiving said signal,

comprising the steps of:

(a) displaying a menu containing a PDA option and a mobile phone option for selection by activating a display means after the electronic device is powered on;

(b) enabling a user to select one of said options by clicking through an activated input means;

(c) causing said CPU to determine which of said PDA option and said mobile phone option is selected and if said mobile phone option is selected, causing said CPU to read a program stored in a mobile phone read only memory (ROM) for showing a prompt of said mobile phone, closing a switch means for commanding a transceiver means through a control circuit, transmitting messages from an antenna or received by said antenna, and operating said device for reading data from a random access memory (RAM) or writing data into said RAM; and

(d) causing said CPU to read a program stored in a PDA ROM if said PDA option is selected for showing a prompt of said PDA, controlling said selected PDA option by said control circuit, and operating said device for reading data from said RAM or writing data into said RAM.

2-3. (Canceled)
